

SUCCESSFUL PROJECT CASE

SURGE VESSEL-ASME U FOR QATAR

REIN PROCESS EQUIPMENT (JIANGSU) CO., LTD

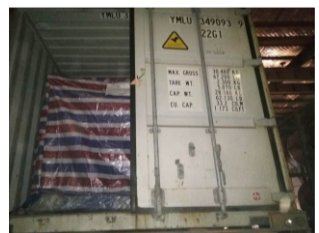

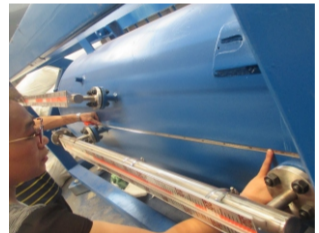

Designed, manufactured and supplied five units of Surge Vessels as per ASME standard within the period of 2017-2018.

Before placing order, drawings with technical description was provided. Customer conducted inspection of engineering and manufacturing facilities.

During the products, technical team of our company relied on ASME standard with all required engineering, manufacturing, testing, marking.

By the mid of 2018 Surge Vessels were successfully delivered to the production side.

After delivery our company still provided necessary parts which was missed by the customer during determining scope of supply. Our company provided immediate support.
